Peer Mediation: Citizenship And Social Inclusion Revisited - Cremin, Hilary 2007-09-01 “This book is a must for those who, like me, believe passionately both in the power of peer mediation...and in the urgency of spreading good practice in a society like ours, which is desperately searching for ways to be inclusive and at peace with itself.â€”Tim Brighouse, former Commissioner for London Schools. As the challenges facing young people grow so do the array of support mechanisms to help them. During my time as a Member of Parliament and as a Minister I saw many of the ideas and initiatives which were tackling this issue. I am attracted to the idea of peer mediation mainly because it goes beyond the question of how can we protect and help children when they have a difficulty, and develops those increasingly important social and emotional skills in all children. Estelle Morris, Former Secretary of State, DfES Why use peer mediation? What are the factors that influence its failure or success? Peer mediation as a form of conflict resolution is growing in popularity and usage, particularly within education. The number of schools using this method has increased, with many schools in the UK now using mediation to settle disputes both in school, and in the wider community. Based on the author’s extensive work on peer mediation, the book provides a thorough account of theory and practice relating to an approach that can enable young people to resolve their own disputes and those of their peers. The author shows how peer mediation can be embraced by schools to strengthen student voice, behaviour management, active citizenship and inclusion, as well as how it can be neglected and fail to achieve these aims. Drawing on case studies of peer mediation in schools, the book offers an analysis of the work that has been carried out in this area. It revisits key debates in education such as citizenship, social inclusion, student voice and behaviour management in order to begin to address the questions surrounding this method of conflict resolution. Peer Mediation is key reading for primary and secondary school teachers, educational professionals, academics, policy-makers and those with an interest in practical peace making.

Everyday Mediation - Patricia Boozer 2013-02-26 This mediation program provides eight training sessions. We provide the information and forms needed to set up and administer an effective In-House Mediation Program. BENEFITS: What's in it for me? You are the trainer. This mediation program will be available year-round, not just an hour session or lecture that fades over time. It's a mediation program to call you own! We have provided an easy-to-follow instructional manual. A few more of the many benefits of an In-House Mediation Program are listed below. It is an effective alternative to bullying, fighting, verbal violence, and rumors. It saves time, energy, and cost spent on conflict by reducing physical, emotional, and property damages. It is a low-cost and high-results way to eradicate conflict peacefully. It is convenient. The trainers may train ANY NUMBER of students at a time and at ANY TIME that works with their schedules. It prepares individuals to participate as a part of the solution--versus--a part of the problem. It is an investment in the future. We provide the information and forms needed to set up, administer, and maintain an effective In-House Mediation Program.

Using Peer Mediation in Classrooms and Schools-James Gilhooley 2000-02-02 This book offers not only a hands-on training agenda that can be adapted to primary or secondary schools, but also a step-by-step approach to introducing peer mediation to administrators, faculty and staff, students, parents, and the community. The authors have included comprehensive guidelines and forms for everything needed to initiate a peer mediation programme, market it, train participants, and evaluate and expand an existing programme. Many forms are available that can be modified to the specifics of any school and programme. Frequently asked questions are addressed, and many suggestions provided to follow up the training and implementation of the program. This is an excellent guide for teachers, counsellors, administrators, or anyone wanting to introduce students to the benefits of peer mediation

**How to Do Restorative Peer Mediation in Your School**-Bill Hansberry 2017-10-19 Developed for schools exploring the use of restorative approaches to conflict resolution, this manual explains how to set up and run a restorative peer mediation programme, to provide students with the skills needed to nurture a climate of care and co-operation. Peer mediation
can help peers solve conflicts in the classroom and schoolyard, providing both peer mediators and the children they help with opportunities for responsibility, growth and learning, as well as freeing up time for teachers to focus on other priorities. The guide includes all the information you need on how restorative peer mediation works, and includes an easy to implement training programme with sample scripts, handouts and letter templates to train up peer mediators in your school. With adapted materials for delivering training to children aged 10-16, this handbook is accompanied by downloadable and adaptable online materials to tailor training to specific settings.

Peer Mediation - Judith M. Ferrara 1996 For more than ten years peer mediation programs have been springing up in schools. Although they are begun with the highest hopes and best intentions, many programs falter in their second or third year, then disappear. What makes a program effective enough to endure year after year and become part of a school’s culture? Peer Mediation is the story of how one successful program started in an urban elementary school-how it was designed, implemented, and maintained. Teacher and mediator Judith Ferrara explains mediation, what it means to start up a program, watch it grow, change, and endure. At the heart of this book are the voices of the students who volunteered to become peer mediators, learned to understand the mediation process, and worked to help shape the program. Their thoughts and reactions to the peer mediation program, their tenacity, and, above all, their ethic of caring will leave a strong impression. Peer Mediation demonstrates the need to listen to students, observe their responses to the program, and work with them to revise it in order to maintain it. Peer Mediation includes: strategies that may be used to implement and maintain a peer mediation program; vignettes in each chapter selected and interpreted to demonstrate what it can mean to adults and students who are part of a peer mediation program; suggestions for handling the problems that arise and changes that occur when peer mediation programs "start up"; forms, checklists, and standards for preparing and assessing peer mediation programs; an annotated bibliography of mediation theory and practice, conflict resolution curriculum, and program materials. Because Peer Mediation follows one program from implementation through its third year, it will be a useful resource for guidance counselors, teachers, and administrators who wish to start up a program, or gain insight into how to maintain an existing one.

What are Students’ Perspectives on the Quality of the Conflict Management Program? - Cheryl McCauley 2007 The purpose of this study
was to examine one peer mediation program in a Southern California school district and solicit the peer mediators’ perspective of the quality of the training program. The study surveyed 22 of the 24 7th and 8th grade peer mediators at one urban middle school. Using five open-ended questions, the survey asked respondents to reflect on the quality of their training for the peer mediation program, conflict managers. The survey also asked what the peer mediators get out of facilitating group meetings and helping their peers. Data was analyzed to determine mediators' perceived benefits of their training and program their ideas on what could be improved, whether the program taught them the facilitating tools they needed to resolve a conflict between their peers. Through this study, it was discovered that a) many students enjoyed helping their peers with their conflicts and b) training was perceived as sufficient in preparing students for facilitating peers conflict resolution through the conflict management program. Key Words: Peer mediation, conflict management, resolution, and bullying
